Task: create high quality solution for transportation company:

1. Software to manage company efficiently
2. Website for passengers to buy tickets and travel easily

Solution for company management:

- powerful and flexible company management system written in Symfony
- travel planning
- passenger volumes monitoring
- profit optimization tools
- buses movement monitoring via Geographic Information System

Solution for passengers:

- improved and easy tickets search
- high informative results
- precise routing maps
- digitalized ticket-free boarding
- application to access information everywhere
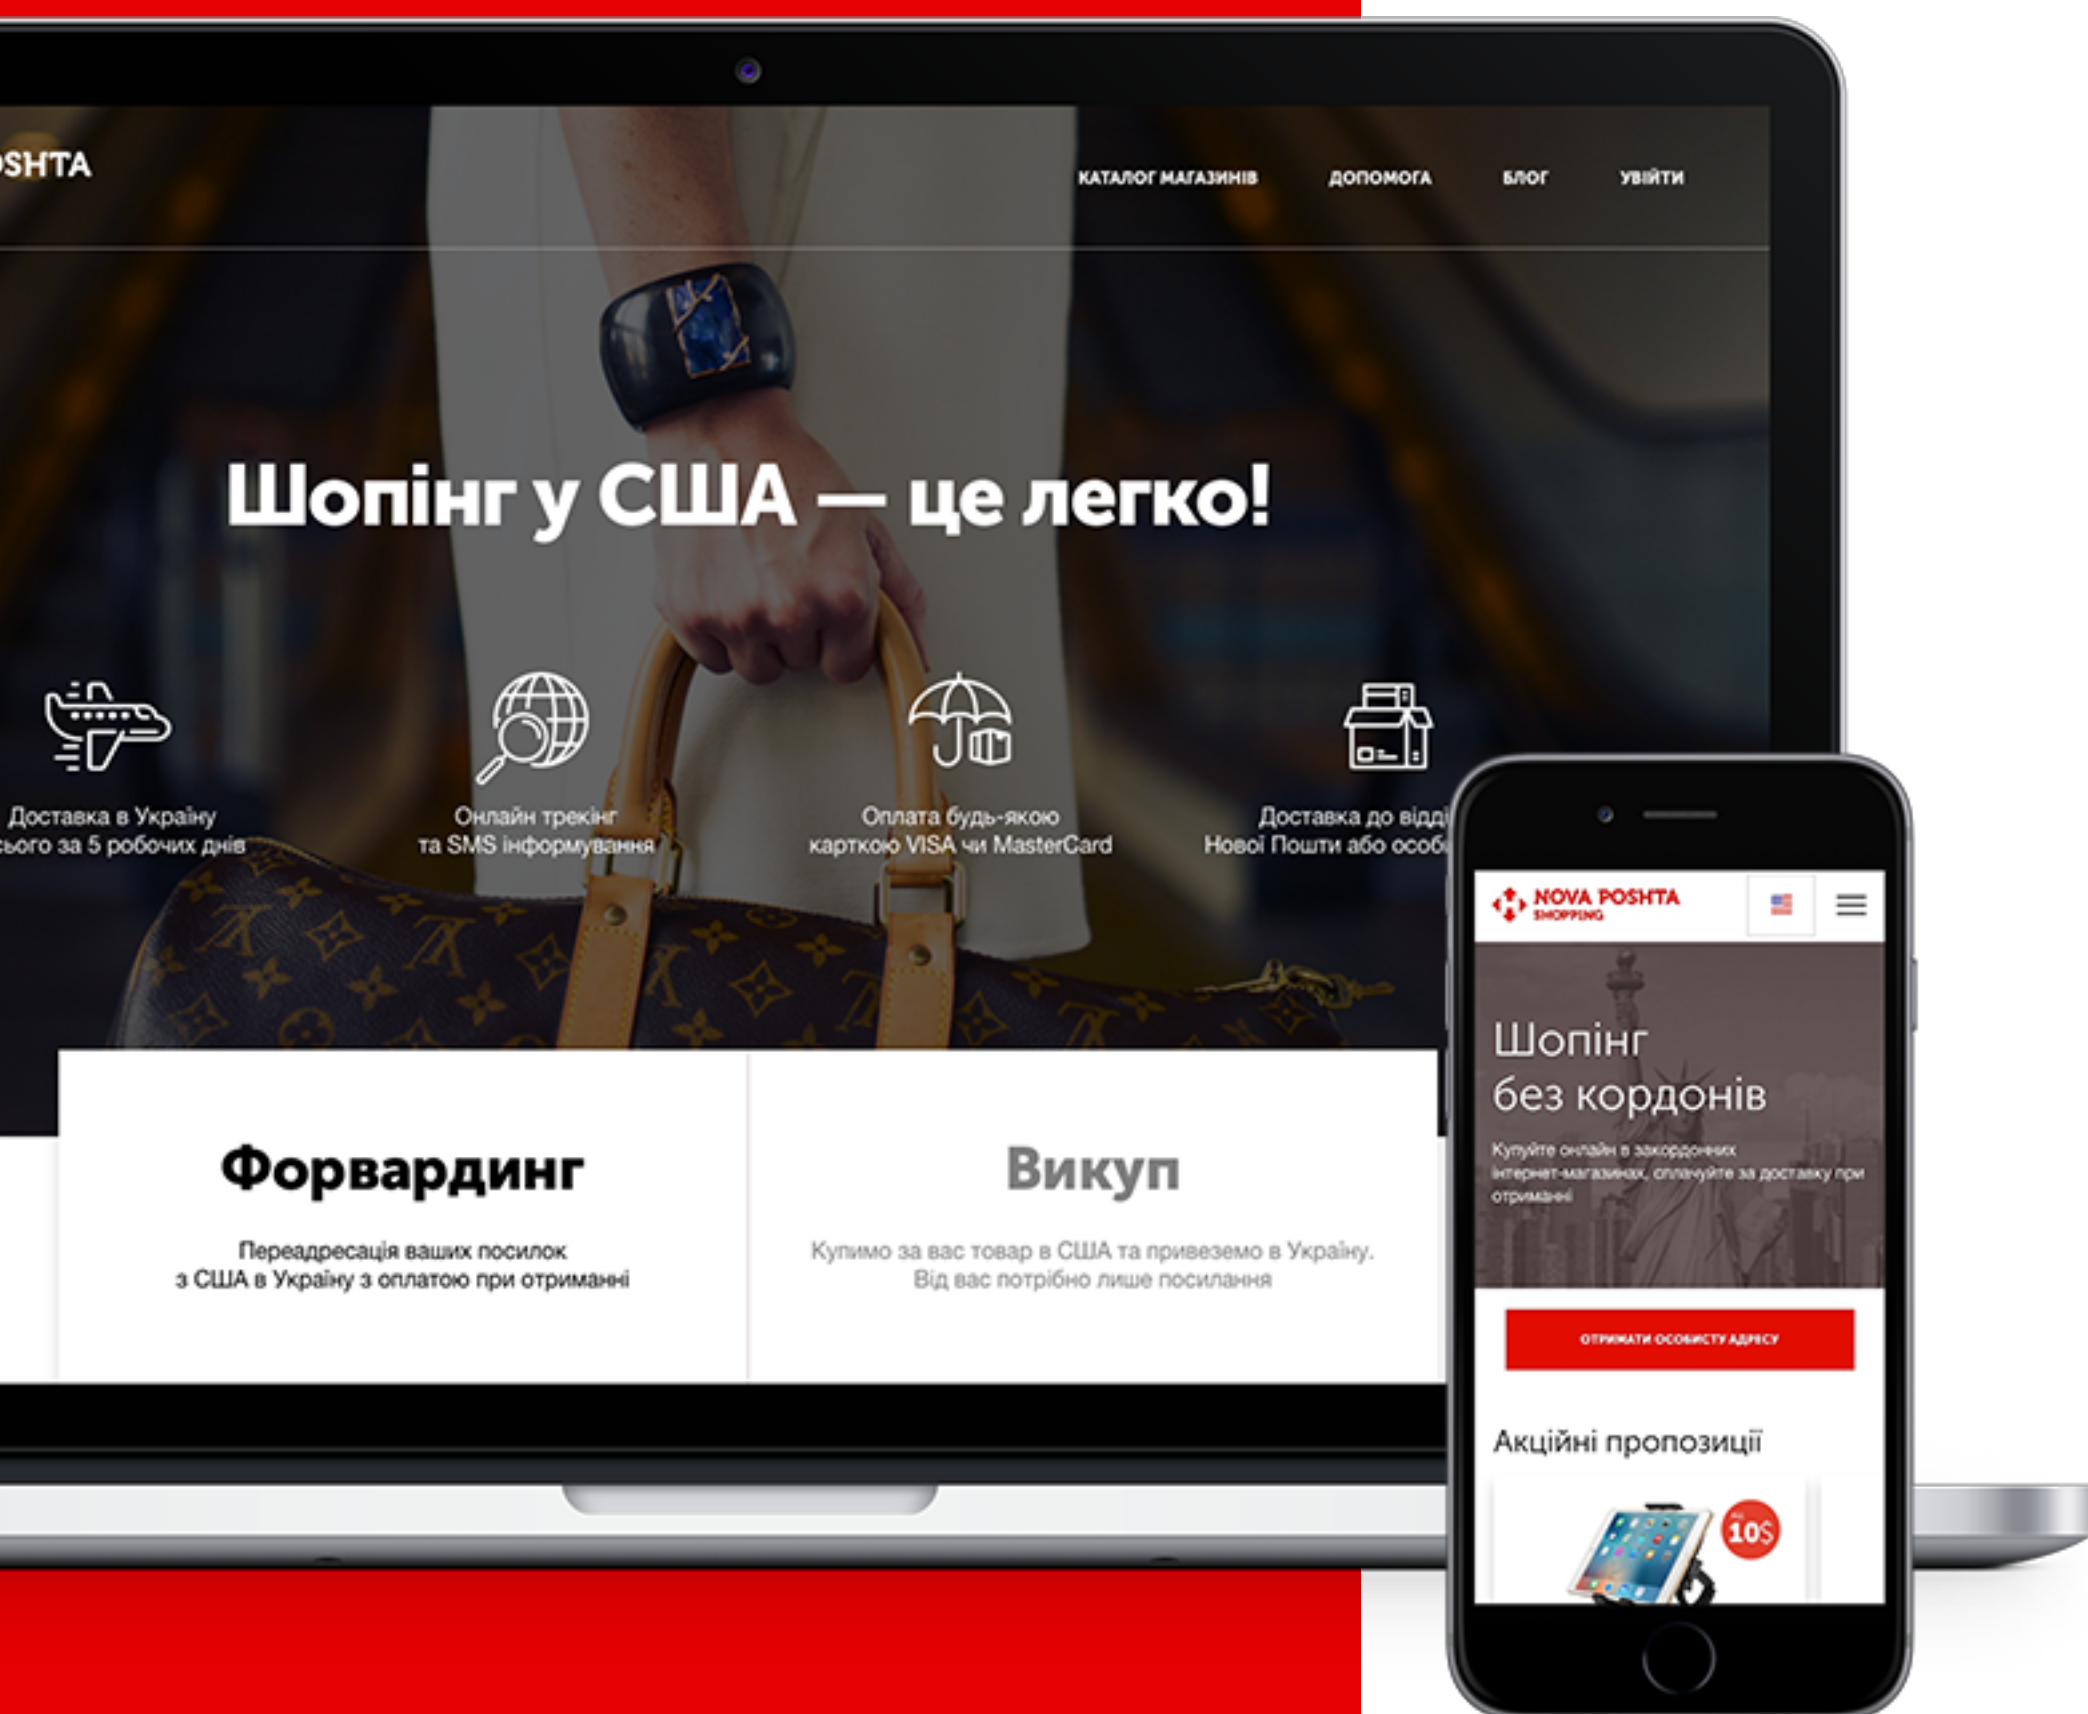

Nova Poshta
Shopping

Task: create completely new efficient website to boost sales.

Challenge was doubled by short terms of the project.

Solution:
- Completely redesigned homepage
- New software engine written in Symfony
- Custom admin dashboard
- Dashboard for warehouse operators
- Multi-domain, multi-template and multi-language
- Integrate website with external NPI (SOAP) service

Results speak for us. First week of launch:

7 927
new users

2 024
orders placed

$130 000
declared by users

Message from Founder

We have perspective vision and develop solutions that will efficiently serve your business in the long run.
